Dear Prof. Vimal Y

Vice Chancellor,

Greetings from O.P. Jindal Global University (JGU)!

It gives me immense pleasure to share with you that JGU is organising the **STAR Global Conference 2026**, in partnership with the **STAR Scholars Network from 10-14 December 2026**, at its campus in Sonapat, Haryana (Delhi NCR). The conference, themed **"Flourishing and Sustainability in the Age of AI"** will bring together distinguished scholars, academicians, researchers, policymakers, and practitioners from across the world for multidisciplinary dialogue and academic collaboration. We envision a gathering of **1000+ delegates** including academics and practitioners from **40+ countries** on campus.

The conference assumes particular significance through its partnership with the **STAR Scholars Network (Society of Transnational Academic Researchers)**, an internationally recognised academic network connecting over 33,000 scholars and students across the world. The acronym **STAR** also reflects the shared commitments of members of the network: **Social Impact, Transnationally Networked Leaders, Academically-Driven Educators, and Researchers with Ethics and Integrity**. The network is guided by core values that emphasize human-to-human relationships, distributed leadership, open access knowledge, continuous learning, local language inclusion, and the collective pursuit of alternative and more humane futures. These principles have helped nurture a vibrant international community of scholars committed to advancing socially impactful research and collaboration.

The **STAR Scholars Global Conference 2026** is envisioned as a **multi-disciplinary platform bringing together scholars from the Humanities, Social Sciences, and STEM disciplines to present research, exchange ideas, and foster international collaboration through panels, workshops, and scholarly dialogue.**

The conference offers a valuable opportunity to engage with academic leaders, gain insights into the **transformative role of Artificial Intelligence in teaching, learning, research, and institutional governance**, and explore emerging approaches to **sustainability and educational innovation**. By bringing together global expertise across disciplines, it will provide participants with valuable insights into emerging educational practices, responsible AI integration, sustainability, and innovative research methodologies. The conference will also create opportunities for **international networking, collaborative research, academic partnerships, and scholarly publications**, thereby contributing to faculty capacity-building, institutional innovation, and the global visibility of Indian higher education.

The hosting of this international conference also builds upon JGU's **strong commitment to multidisciplinary education, research and global academic engagement**. JGU is a non-profit, multidisciplinary and research-oriented university founded in 2009, with 16,000+ students, 1,100+ full-time faculty members and 2,900+ administrative staff on its fully residential campus. JGU's twelve schools focus on Law, Business & Management, International Affairs, Public Policy, Liberal Arts & Humanities, Journalism, Design & Architecture, Banking & Finance, Environment & Sustainability, Psychology & Counselling, Languages & Literature, and Public Health & Human Development. Over the last decade, JGU has grown into a truly international institution, with full-time faculty from 50+ countries, students from 160+ countries, and collaborations with 625+ leading institutions across 80+ countries.

Request for Institutional Participation

To strengthen academic exchange and foster greater collaboration across institutions of higher education, we kindly request you to **nominate at least two faculty members or doctoral scholars** from your university to participate in this prestigious international conference. Their participation would provide valuable opportunities for international academic engagement, research collaboration, and professional development.

To encourage wider participation, **the conference registration fee has been completely waived**. Accommodation and meals will also be provided to delegates free of cost, while travel expenses will be borne by the participants or their respective institutions. Registration is mandatory and subject to confirmation by the organisers. As participation slots are limited, early registration is encouraged.

Conference Brochure: Star Global Conference 2026.pdf

We look forward to your kind support in facilitating participation and making this conference a meaningful platform for academic exchange and collaboration.

Thanks and best regards,

Raj
